

# Wipro Industry Innovation Experience for AI

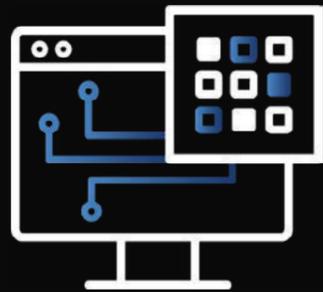

Unlocking the Future: Revolutionize Your Business with AI

## The solution

A generative AI/ML platform that accelerates adoption of Generative AI for use cases addressing all scenarios.

## Wipro Lab45 AI Platform

### Generative AI/ML

Wipro Lab45 AI Platform is a comprehensive, pluggable Generative AI platform designed to enhance productivity and efficiency for enterprises across various vertical and horizontal scenarios. The platform offers GenAI agents to accelerate the adoption of GenAI across industries and domain functions. It also provides a flexible, modular infrastructure for seamless integration of underlying models and data sources.

Wipro Lab45 AI Platform is equipped with a comprehensive suite of Microsoft Azure services including Azure Open AI and services for computer vision, speech and document intelligence. The platform includes Azure App services, Cosmos DB, storage accounts, and virtual machines for data storage and model building and deployment. For security, application gateway, sentinel, monitor, and Azure firewall etc are used.

### Benefits:

- **Enhanced operational efficiency and productivity** through task automation and data-driven decision making
- **SaaS Platform for Quick Time-to-Value:** Fully SaaS-capable and secure from the ground up, anchored on Microsoft Azure Cloud
- **Cost-effective and scalable solutions** for enterprise-wide reuse, and seamless integration with internal and external systems
- **Data Privacy:** Guardrails built into the platform ensures the utmost protection and confidentiality of user information

## Wipro Chat

---

Tailored to your organization's specific needs, Wipro Chat enhances customer support, generates content and tackles specific tasks internally. Proprietary data training ensures confidentiality and privacy.

## Document Chat

---

This customized variant of GPT analyses, summarizes and generates insights from files. Tailored for internal use, it excels in content analysis, summarization, and generating valuable information while ensuring confidentiality and exclusivity of user data.

With the tools and knowledge to inspire what's next, we can partner with you to customize new solutions and empower your organization to thrive.

**Let's innovate together.**
